

Christmas Countdown Craft

DAY 11: Shiny Paper Angels (page 1 of 2)

You will need

1 piece of A4 white card or paper and another piece of shiny card or white paper

Pen or pencil

Large dinner plate and a small dinner plate

Glue/sticky tape

Glitter, paint, colouring pens, gold silver shapes – whatever you have at home!

Wool/string

Pipe cleaner

Instructions

Angel's body

Get a large dinner plate, lay it on your card and draw a semi-circle (which is about half your dinner plate).

Then do the same again with the smaller dinner plate, inside the semi-circle you already have, but when you are drawing this semi-circle, leave a gap with your pen at the top of the semi-circle.

Where there is a gap, draw a circle which will be your angel's head. Join the edges of the semi circles by drawing a line across from one end to the other, now your angel shape is ready to be cut out.

Its time to decorate your angel now – you can use, glue, paint and/or glitter! Whatever you have at home!

Once you have decorated your angel, put some glue down one edge of your angel and make your shape into a cone this will mean that the angel base should stand up.

Angel Face

Draw a circle, cut it out and draw your angel's face onto the circle; then stick that on the front of your angel. [\(Please go to page 2\).](#)

DAY 11: Shiny Paper Angels (page 2 of 2)

Angel Wings

Next its time to make your wings! Cut out a circle from white or shiny paper and then fold your paper in half to make your wings. Decorate them and then put some glue down the middle of the wings and attach them to the angel.

Angel's Hair

Next it's time to make your hair – you can use wool or string. If you want long hair then wrap wool/string loosely around all of your fingers, but if you would like short hair, just wrap the wool/string around 2 fingers. Then cut the string/wool and use one piece to tie the string/wool together. Then cut the bottom of the circle of string/wool and this will make your hair. Using glue, fix the hair around your angel's face.

Angel's Halo

The last thing to do is make a circle with a pipe cleaner – then attach the pipe cleaner halo to the back of your angel using sticky tape or glue.

Hope you enjoy making your angels! Don't forget to send us a picture of what you have made!
